### TikTok

You may have read in the news lately that children and young people have been sending money to their favourite influencers on this app. Influencers promise to share their phone numbers in return for a "digital gift" which is sometimes as much as £48.99. Please remain vigilant if your child uses this app which requires users to be at least 13 years old however Common Sense Media actually recommends the app is for age 16+ due to the privacy issues and mature content.

### Bicycle Safety

Please ensure that your child wears their helmet to and from school for their own safety.

With this in mind, we would respectfully ask you to slow down and drive carefully from a safe distance when you see young cyclists. Children can be unpredictable on their bikes and scooters, and extreme caution should be exercised at all times.

### Internet Safety

Visit the NSPCC website using the undernoted link for informative advice on how to keep your child safe when they are away from home.

This article covers topics such as your child getting lost, danger from traffic, stranger danger, bullying etc and is well worth a read.
